SP-88 Seven Foot Spa

This spa is a seven foot, six person lounge offering 88 various style hydrotherapy jets. The two pump, ten horsepower single valve power plant provides tri-zone hydrotherapy for unmatched relaxation. The seats in this spa are designed to fulfill your hot tub experience with two deep bucket seats (each including neck therapy), two uniquely designed jump seats for lower and middle back relaxation, and a full body massage lounge chair. A cathedral style staircase provides easy access in and out as well as an optional cool down seat for the sixth person. Combine all this with a maintenance free PermaWood cabinet, ThermoService® foam

insulation system, and Lucite® acrylic for the ultimate 21st century spa.
